Supported through a grant from the NIH, the National Center for Integrative Biomedical Informatics (“NCIBI”) is one of seven National Centers for Biomedical Computing (“NCBC”) in the NIH Roadmap. Based at the University of Michigan, part of the UM Center for Computational Medicine and Biology (“CCMB”), the NCIBI develops efficient software tools, data integration methods, and systems modeling environments. This Suite of Tools and Data (the “Tools”) allows the Center to provide researchers with web-accessible knowledge analysis, collaborative work environments to create and utilize computationally-enabled models, and workflows to better understand complex biomedical processes. By agreeing to these Terms of Use governing the use of the NCIBI tools, you agree as follows:

**General Use Policy:**

**For academic and non-profit institutions:**
- Permission is granted to access, use and/or download the Tools for internal use only;
- If the user desires to create derivative works of the Tools, source code or access to databases may be made available through request to the NCIBI by e-mailing: ncibi-help@umich.edu;
- Users must inform NCIBI of any derivative works of the Tools created (e-mail: ncibi-help@umich.edu);
- Use of the Tools must be acknowledged in resulting publications (see citation policy below).

**For commercial and for-profit institutions:**
- Permission is granted to access, use, and/or download the Tools for internal use only;
- To create derivative works of the Tools for commercial purposes, source code or access to databases may be permitted through negotiation for a commercial license. Please send request through: ncibi-help@umich.edu

**Citation Policy:**
